

# **Environmental and Natural Resources**

## **Purpose**

Environmental and natural resource education has a responsibility to educate the public and prepare students to enter careers in the environmental and natural resource industry. The purpose of the environmental and natural resource career development event is to foster student interest, promote environmental and natural resource instruction in the agricultural education curriculum, and provide recognition for those who have demonstrated skills and competencies as a result of environmental and natural resource instruction.

## **Event Rules**

- Each team will be comprised of four members. All four scores will be used to determine the total team score.
- Under no circumstance will any participant be allowed to handle any of the items in the identification portion of the practicums. Any infraction of this rule will be sufficient to eliminate a team from the event.

## **Event Format**

#### **Equipment**

Participants must use the tools and equipment furnished at the event. Equipment that will be provided:

- A clipboard.
- Two sharpened No. 2 pencils.
- All other tools and equipment will be furnished for the event.

#### **Individual Activities**

Objective Written Exam — (100 points)

The written exam will consist of fifty questions submitted by the event committee. Questions will come from the last five years (2018, 2019, 2021, 2022, 2023) of National Environmental and Natural Resources CDE exams.

#### Identification — (100 points)

Students will complete fifty items. These may include pelts, bone, actual specimens, photos, footprint casts or scat. Identification would include understanding the application of or responding to questions regarding the samples/specimens. This will include items from the following lists:

- Equipment
- Native species
- Invasive/non-native species

#### **Annual Practicums**

The following areas will be completed by each competitor.

#### Soil Profile —(100 points)

• Students will be furnished with a scorecard, and an interpretation guide to judge. Students will utilize information given to complete a national land judging card.

• Sample information will be given and students will utilize the information to complete all aspects of the land judging card. Example available at the end of the document.

#### Waste Management —(100 points)

- Participants will be presented with various scenarios (agricultural producer, neighborhood, office building, manufacturing plant, etc.,) that generates waste material creating environmental threats.
- Participants will evaluate the nature of waste output to identify plausible options for reducing the rate of waste generation, recycling or providing potential alternative uses for the waste, treating the waste or disposing of the waste.
- Participants should be able to identify at least one benefit and one deterrent for each possible option that is offered.

## **Scoring**

Event participants are evaluated as follows:

ACTIVITY	Individual Points	Total Team Points
Written exam	100	400
Identification	100	400
Annual Practicums – 100 pts. each Soil Profile Waste Management	200	800
TOTAL POSSIBLE POINTS	400	1600

#### **Tiebreakers**

#### Team

- 1. Highest combined identification score
- 2. Highest practicum score
- 3. Highest combined exam score

#### Individual

- 1. Highest identification score
- 2. Highest practicum score
- 3. Highest exam score

## **References**

This list of references is not intended to be all-inclusive.

Other sources may be utilized, and teachers are encouraged to make use of the very best instructional materials available. The following list contains references that may prove helpful during event preparation.

## **Identification List**

#### 100 POINTS

#### **Equipment**

#### Water Quality

101. refractometer

102. secchi disk

103. water meter for

physical/chemical parameters (pH,

conductivity and/or DO)

#### Aquatic

104. bottom dredges

105. fish measuring board

106. plankton net

107. seines

108. sieves

#### Wildlife

109. animal tags/bands

110. mammal traps

111. snake/reptile stick

112. radio telemetry unit

#### Weather

113. wind speed meters

114. barometer

#### Soils

115. abny level

116. push probe

117. soil auger

118. soil color book

#### **Native Species**

#### Wildlife

201. armadillo

202. badger

203. beaver

204. bighorn sheep

205. bison

206. black bear

207. blacktail deer

208. bobcat

209. chipmunk

210. cottontail

211. coyote

212. elk

213. fox squirrel

214. gray squirrel

215. gray wolf

216. grizzly bear

217. jack rabbit

218. mole

219. moose

220. mountain goat

221. mountain lion

222. mule deer

223. muskrat 224. opossum

225. pocket gopher

226. porcupine

227. prairie dog

228. pronghorn

229. raccoon

230. red fox

231. skunk 232. weasel

233. whitetail deer

234. woodchuck

#### **Birds**

301. bald eagle

302. blue jay

303. bluebird

304. brown thrasher

305. Canada goose

306. canvasback duck

307. cardinal

308. Cooper's hawk

309. Crissal thrasher

310. mourning dove

311. great blue heron

312. great horned owl

313. golden eagle

314. hummingbird

315. kestrel

316. least tern

317. mallard duck

318. osprey

319. pelican

320. purple martin

321. quail

322. red-tailed hawk

323. sand hill crane

324. blue-winged teal

325. turkey

326. whooping crane

327. wood duck

#### **Native Species**

#### Reptiles/Amphibians

401. alligator

402. alligator snapping turtle

403. black rat snake

404. bullfrog

405. collared lizard

406. common snapping turtle

407. copperhead snake

408. coral snake

409. corn snake

410. cottonmouth

411. crocodile

412. fence lizard

413. garter snake

414. green anole lizard

415. gray tree frog

416. rattlesnake

417. red eared slider

418. ring neck snake

419. rubber boa snake

420. scarlet king snake

421. Woodhouse's toad

#### Fish and Other Aquatic Animals

501. blue catfish

502. bream/bluegill

503. brown trout

504. carp

505. channel catfish

506. clam

507. crab

508. crappie

509. crayfish

510. flathead catfish

511. largemouth bass

512. lobster

513. salmon

514. shrimp

515. smallmouth bass

516. sturgeon

517. trout

518. walleye

519. yellow bullhead catfish

#### **Invasive/Non-native species**

#### **Plants**

601. broom snake weed

602. cheatgrass

603. Chinese tallow

604. cogon grass

605. English ivy

606. Himalaya blackberry

607. hydrilla

608. juniper

609. kudzu

610. leafy spurge

611. melaleuca

612. mimosa tree

613. purple loosestrife

614. Russian olive

615. saltcedar

#### **Animals**

701. Asiatic clam

702. Asian long-horned beetle

705. Chinese mitten crab

706. chukkar

707. English sparrow

708. European starling

709. feral hog

710. feral horse

711. fire ant

712. Gopher

713. Norway rat

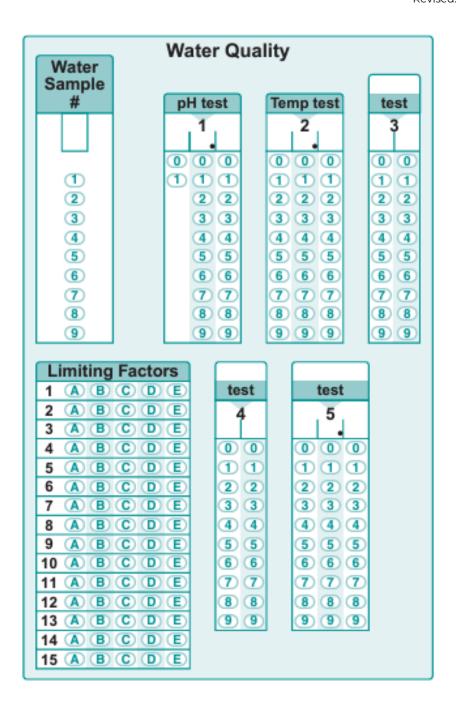

714. Nutria

715. ring neck pheasant

716. sea lamprey

717. Tilapia

718. zebra mussel

# **Soil Profile Scorecard**

	Total Po	oints Part 1(60 points possible)		
	GRAND	TOTAL POINTS – 100 (points possible)		

# **Soil Profile Scorecard Example**

Utilize the information below to complete the soil profile card provided. You will then utilize the information to also complete permeability, surface runoff, major factors that keep area out of class 1, land capability class, vegetative and mechanical land treatments, and fertilizer & soil amendments.

#### **Surface Soil**

Loose, very friable and the individual grains can be readily seen or felt. When squeezed between thumb and forefinger it feels gritty and will not ribbon or stain fingers.

#### Subsoil

Feels gritty but contains enough silt and clay to make moist soil hold together. If squeezed when moist, a mold can be formed which can be carefully handled without breaking. It forms no ribbon or very poor ribbon.

#### **Depth of Soil**

24 inches of soil can be penetrated by plant roots.

#### Slope

There is a 1.7-foot elevation change in 100 feet.

#### **Erosion**

Original topsoil was 8". Currently topsoil is 4".

Ph is 5.5 Phosphorus is 75 Potassium is 75 Nitrogen is deficient

Students would take the information above and complete the soil profile scorecard. <a href="www.landjudging.com">www.landjudging.com</a> will be a good resource. Go to practice, then the land cards for examples.
